

Sevilian entrepreneurs offer a luggage delivery service to avoid check in

LOCATION: SEVILLA

DURATION: 1'39"

SUMMARY: Three sevilian entrepreneurs have decided to create their own luggage delivery service. They offer travelers a chance for not having to worry about luggage. Days of queuing for checking luggage and carrying it are gone. 'Tuequipaje.com' is an intermediary that contacts a delivery service; they pick your luggage at home and then take it to the holiday destiny. These entrepreneurs take advantage of the weakness of Low Cost companies that sometimes make carrying luggage more expensive than the ticket itself.

VTR:

It is high season for luggage and to avoid problems with it María José has hired the services of a sevilian company that offers the possibility to send it to the exact place where she is staying in holidays.

"I will be comfortable, with no worries. It is also safer because if I have to stop off, how many times have we lost our luggage and, when we have arrived to the hotel ,have been obligated to go in a hurry to buy clothes or luggage immediately?"

Days of waiting impatiently at the baggage belt and queuing for checking luggage are gone. Thanks to the delivery service that these entrepreneurs offer through their website.

"The idea came out of our own needs. We have two little boys, one and three years old, and when holidays arrived preparing luggage, baby carriages, travel cots...all the necessary things for a baby, all became an ordeal."

Here we can choose what kind of luggage we are taken with us, a set of golf clubs, baby carriages or surf boards, things that in most cases can be even more expensive than the ticket.

"No, it is an affordable prize, very economic; everybody can afford this kind of services. For example, the prize for 10 kilos of hand luggage is 12 euros."

And from 20 kilos almost an euro for a kilogram of luggage. A simple way to make our holidays completely relaxing.
