

Jonás, the sperm from Malaga nominated to a Max Award

LOCATION: Malaga
VTR: 2'05''

SUMMARY: Jonás is a sperm that prefers to live in the tranquility of a testicle rather than take the hectic race towards fertilization. It is lazy and it is the main character of a puppet show for kids, 'The incredible Jonás the sperm' directed by Angel Calvente from Malaga and nominated to a Max Award in the Best Children's Show category. Calvente founded the puppet company 'The Black Mirror' 23 years ago. Its shows generally aimed to an adult audience. He created the concept of puppets for adults, a pioneer activity then in Spain which has taken him to live through some hilarious situations such as a nomination in a children's category of a story where the main character was an old actress of canine porn.

VTR:

Sperm talking: "The journey kid, the journey has begun." "and ejaculation?" "Yes! Ejaculationj".

Without mincing the words and doing some straight talking.

Sperm talking: "The penis leaves the vagina!"

This is the incredible journey of Jonas the sperm. He comes from the puppet Company 'The Black Mirror' directed by Angel Calvente from Malaga.

"When I began to write the story I had a clear idea, that the language used was going to be clear and direct although it was aimed at children".

A work that could get a Max Award under the Best Children's Show category and that despite being aimed at children is far beyond the 'daddy placed a little seed on mummy's belly'

"How can you call a penis anything else? A penis is a penis that goes into a vagina and ejaculates. That is the mechanism that allows us all to be here and there is nothing obscene about it. That is the way it is, and it is proven" (he laughs)"

Children see this as something natural.

"And it is quite rewarding when kids come to you and say: Wow! Do I also have a Jonas in me?"

And parents...

Dtor. 'The Black Mirror'

"For some parents we have taken away a problem, but we have given them a lot of questions more".

Because many of them have been faithful followers of this company since its beginnings, 23 years ago, when it started to produce its puppets shows for adults.

Dtor. 'The Black Mirror'

"Well, the truth is people used to be puzzled, puppets for adults? But puppets are for children they said. No, no, this is for really adult people."

Something so new that it took them to surreal situations such as its irreverent cabaret 'Crazyness'.

"Whit a co-star called Just Misfortune, that used to work in canine pornography, zoophilia and run a bar... that show was too nominated to best children's show award... it was really funny, obviously we knew we were not going to get the award"

Puppets that Calvente brings to life with his own hands, of which soon will be born the stars of his next show: an adaptation in verse of the classic Don Mendo's Vengeance. This time a show for the whole family.
