

## **An app connects engineers and companies to facilitate labour insertion**

**LOCATION:**Palos de la Frontera (Huelva)

**DURATION:**1'28"

**SUMMARY:** The companies that need engineers post job offers through this mobile app. Then, students and graduates from the Superior Technical College of Engineering of the University of Huelva receive an alert in their cell phones. With this tool, developed by students of this centre and designed by its director, they aim to facilitate access to the labour market to young engineers and encourage companies to make the most out of the local talent.

### **VTR:**

Entering the labour market is now easier for students and graduates from the Superior Technical College of Engineering of the University of Huelva thanks to the app ETSIEMPLEA.

**DANIEL GIL**  
**UHU student**

*"Because it is a very easy way to find a job offer that interests you; and you can also broaden your education because, in addition, we also publish courses, grants..."*

**SAÚL MORO**  
**UHU student**

*"Furthermore, they are related to your field and the University of Huelva has considered that students are going to find them interesting."*

ETSIEMPLEA is a web app where the company that needs an engineer can post a job offer in barely five clicks. Automatically, the students and graduates who have downloaded the app, will receive an alert.

**JACINTO MATA**  
**Dir. ETSI University of Huelva**

*"It is a very simple tool and that's why we think that is going to succeed."*

These three Computer Science students from the University of Huelva have developed the app. But it was the director of the college who came up with this idea.

**JACINTO MATA**  
**Dir. ETSI University of Huelva**

*"I could not sit with my arms crossed thinking that my graduates didn't have enough information, and I think that it is the duty of the university to keep track of its graduates, and help them to enter the labour market."*

The app is available on Android and allows companies to connect with 2,300 engineers of nine different branches who graduated in the University of Huelva from 2008 onwards.
