

NoDopApp: an app which fights doping alerting of banned substances in medication

LOCATION: Almería

DURATION: 1'12"

SUMMARY: NoDopApp is an app which alerts of doping substances which can be contained in medication. It has been created as part of a campaign promoted by the Official College of Pharmacists of Almería, with the collaboration of the Andalusian College and the Spanish Agency for the Protection of Health in Sport. This initiative is aimed at both federated and amateur athletes.

VTR:

Ambience: "Use restricted."

Knowing if medication contains doping substance is this easy thanks to NoDopApp, created by the Spanish Agency for the Protection of Health in Sport and promoted by the Official College of Pharmacists of Almería.

ADELA ARENAS
Pharmacist

"This app can help athletes who are going to compete to restrict the use of this type of medication avoiding false positives in doping checks."

Substances which are contained in around 2.000 marketed drugs, some of them widely used.

ADELA ARENAS
Pharmacist

"In the treatment of minor pathologies such as colds, haemorrhoids, eyewash..."

MANUEL GUTIÉRREZ
Run 04 Atletismo

"It is good to know the possible adverse effects which drugs may have."

NoDopApp is free and has over 5.000 downloads, it is aimed at both professional and amateur athletes.

MÓNICA PELEGRINA
Run 04 Atletismo

"Despite I am not a high profile athlete, but it can be a pretty interesting app for people who are curious about it."

JOSÉ AGUILAR
Run 04 Atletismo

"And as you have it in your phone, you don't need to ask anyone about it."

The app warns users about banned substances and the doping levels they could reach after consuming them. One more step towards clean sport.
