

## A machine to practise paddle when you don't have a partner

**LOCATION:** Lora del Río (Seville)

**DURATION:** 1'10"

**SUMMARY:** Antonio Jiménez is a high school teacher in Lora del Río, Seville, and also a paddle enthusiast. He was tired of not having anyone to play with, so he invented a machine with which to practise paddle. That's how, more than a year ago, Pádel Boing was created. It consists of a rebounder net and a mobile app aimed at paddle players. The idea is already on the market, and since November of 2016 is sold in specialized stores.

### VTR:

He was tired of not having anyone to play paddle with, so this teacher from Seville decided to create his own training machine. It's Pádel Boing, consisting of a rebounder net and a mobile app that guides the player.

**ANTONIO JIMÉNEZ**  
**Pádel Boing inventor**

*"Pádel Boing can be used to practise all the existing paddle and tennis strokes. With the app, you can recreate any type of stroke coming from an opponent, to practise the stroke that you decide."*

**FRANCISCO JAVIER RUIZ**  
**Paddle teacher**

*"It is like a personal trainer, because you can practise all the strokes, improve them..."*

Piece of cake. The player places his or her Smartphone on the net and opens the app, where there is an interactive manual.

**ANTONIO JIMÉNEZ**  
**Pádel Boing inventor**

*"Where you can consult angles, where do you must locate, and in addition, watch the video that we have recorded with Spain's number one, Paquito Navarro."*

The invention is aimed at professional players, amateurs and clubs.

**ANTONIO JIMÉNEZ**  
**Pádel Boing inventor**

*"We consider that it can be used as a tool to improve their lessons."*

The net is available in specialized stores and the app can be downloaded in any smartphone. Sports and technology united to reach success.
